Re: NM0890010515

Dear Mr. Kerr:

This letter constitutes a formal request for your Part B permit application for a hazardous waste facility permit under the Resource Conservation and Recovery Act for the above referenced facility. This request is made under the authority of 40 CFR 270.10(e)(4).

The requirements for a Part B permit application are given in 40 CFR Parts 264 and 270. To assist you in preparing a Part B permit application, I have enclosed some guidance material. Please provide one (1) original and three (3) copies of your Part B permit application to the Environmental Protection Agency's Region VI office no later than September 1, 1984. In your application, if any of the information is being submitted under a claim of confidentiality, please indicate this fact in the cover letter and by separating out the confidential information. (For more details on confidentiality, see 40 CFR Part 2.) Should you decide to withdraw your Part A permit application which you filed in November 1980, please contact this office within thirty (30) days from the receipt of this request.

Any questions regarding this request or the Part B permit requirements should be directed to Mr. Strad Will at (214) 767-3451 or Mr. Will Focht at (214) 767-9878. Also, we will be happy to meet with you to discuss the requested Part B application in more detail. You may also wish to contact Mr. Ray Sisneros of the New Mexico Environmental Improvement Division (NMEID) at (505) 984-0020 regarding NMEID's permitting requirements.

Sincerely yours,

Allyn M. Davis
