RE: Update of RCRA Part A Application

Dear Ms. Fort:

A revised Resource Conservation and Recovery Act (RCRA) Part A Application was mailed to you on April 2, 1985, notifying you of changes taking place at the Los Alamos National Laboratory's waste handling facility. One of these changes was the addition of four treatment tanks for which a drawing was attached. Upon further examining the drawing, it was discovered to be an earlier version that was not current. Enclosed is the current revision of the drawing. The containment area is designed to handle more than the complete volume of one tank plus 4 inches of rainfall.

In addition to this change, I would also like to mention that the changes in the referenced RCRA Part A will be effective as of May 1, 1985.

I apologize for the inconvenience and possible misunderstanding this may have caused. If I may answer any questions regarding this matter, call me at 667-5105 (FTS 843-5105).

Sincerely,

[Handwritten signature]

Harold E. Valencia
Area Manager
