GROUND WATER/HAZARDOUS WASTE  
BUREAU

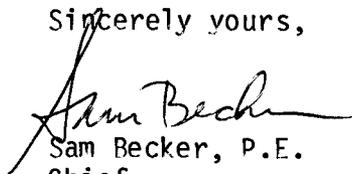

Dear Mr. Pache:

As you requested, we have reviewed the incinerator portion of the Part R permit application for Los Alamos National Lab (LANL), EPA I.D. Number NM0890010515. We reviewed the application for completeness and technical adequacy and have the following comment:

LANL may want to operate the liquid and solid feed to the incinerator at the same time. To make the trial burn demonstration representative of the incinerators potential operation, LANL should do two runs with the solid and liquid waste together during the trial burn.

If you have any questions, or require further assistance, please call myself or have your staff call Jamie Wright at (214) 767-9688.

Sincerely yours,

  
Sam Becker, P.E.  
Chief

Hazardous Waste Compliance Branch
