RE: Incinerator Interim Status
NM 0890010515

Dear Mr. Valencia:

We have reviewed our files on the status of the Los Alamos National Laboratory controlled air incinerator under the New Mexico Hazardous Waste Management Regulations. The LANL incinerator qualifies as an existing unit as defined in Section 102.A.29.

Therefore, you are hereby notified that the LANL interim status is extended to include the controlled air incinerator. You are also reminded that all requirements of the hazardous waste regulations applicable to interim status facilities apply to the incinerator operation.

If you have any questions, please feel free to contact Mr. Peter H. Pache of my staff at telephone number 827-2924.

Sincerely,

Ernest C. Rebeck, Chief
Ground Water/Hazardous Waste Bureau
