Re: NPDES Permit No. [redacted]

Dear Mr. Valencia:

Our records show that an application for a NPDES permit was received on January 10, 1983. Since this application is dated, please review the application with regard to representing present conditions at your facility. In particular, the chemical monitoring results and production levels should be reviewed. If you find that any part of the application is obsolete or otherwise unrepresentative, please submit the updated data on the enclosed form 2C application. Any supplemental information which you think necessary for developing a permit should also be submitted.

Please submit this information within 30 days of receipt of this letter. If you have any questions or need further assistance, please contact Kenneth Holley at the above address or telephone (214) 655-7180. Thank you for your assistance.

Sincerely yours,

Kenneth Huffman, Ph.D.
