Sir:

LANL HAZARDOUS WASTE INCINERATOR
APPLICATION FOR PERMIT TO EID

Kevin Zangara, Taos County Attorney, gave me your letter dated 1 April, 1988 on the LANL application to construct a hazardous waste incinerator.

A group of us in Taos are already researching the LANL application for the TA-16 MASS BURN PLANT in hands of EID Air Quality Bureau.

I understand the hazardous waste incinerator application is 9 vols. or too voluminous to send to Taos. We do not expect or want EID to do burdensome copying; however, we are very interested to review and comment on the application.

Would you please withdraw the application copy from the Los Alamos Public Library and send it to the EID office in Taos to have available for public review at EID here.
(2) Place a legal advertisement in The Taos News advising of the LANL application for permitting.

You are 100% certain of receiving zero comments from Los Alamos on this application.

On the other hand, we view air pollution differently in Taos and should like to review and comment.

Please send to EID in Taos.

Yours sincerely
Michael Horan
