LARRY GORDON
Secretary

CARLA L. MUTH
Deputy Secretary

May 20, 1988

This copy of the Los Alamos National Laboratory Hazardous Waste Permit Application is provided as a public service. Your comments are solicited and welcome. Please provide your comments in writing to:

Mr. C. Kelley Crossman
Permitting Supervisor
Hazardous Waste Bureau (EID)
P. O. Box 968
Santa Fe, NM 87504-0968

All written comments will become a part of the official file and will be considered in the permitting process. Commenters who provide a name and address will be placed on a mailing list and will receive a written response at the appropriate time in the permitting sequence.

The EID hazardous waste permitting process requires careful, thorough analysis of the application and associated materials. This takes time to accomplish. Therefore, please do not expect an immediate reply to your comments. The draft permit will be provided in this library and everyone on the mailing list will receive notification of its availability. At the time the final permit decision is made, written responses to comments will also be prepared. Everyone on the mailing list will receive notification of the final decision. This must occur no later than November 8, 1989, by Federal law.

*Fore word placed in the materials
placed in the Española library.*
