Mr C Kelley Crossman
1190 St Francis Dr
Santa Fe NM 87504-0968

Dear Mr Crossman

Thank you very much for coming to Taos on the 16th in order to explain the regulations about the Los Alamos incinerator. TK

Your informality and forthcoming response to questions was in marked contrast to the almost-immobility of the Panel at the hearings here in July on the same subject. (Too many of their answers were one-word yes or no, or "not in our jurisdiction" without further explanation or indication where we might obtain further information or better standards for emissions.)

I for one learned a few things I did not know before, and appreciated your presentation very much.

Sincerely,
Flo Walker
