OCT 24 1988

Mr. C. Kelley Crossman  
Permitting Supervisor  
Hazardous Waste Bureau  
Environmental Improvement Division  
P.O. Box 968  
Santa Fe, NM 87504-0968

Dear Mr. Crossman:

This letter is in response to your questions on the September 30, 1988 Department of Energy response to Messrs. Horan and Bates on the Los Alamos National Laboratory waste minimization plan. Since the Laboratory does not yet have a RCRA operating permit the requirements for waste minimization plan as specified in 40 CFR 264.73 (9) does not apply to us. However as shown in our 1987 Biennial Report (Form WM), the Laboratory does have a written statement regarding source reduction and recycling of hazardous waste. This is contained in the Laboratory's internal documents: 1) Administrative Requirements 10-1, 2, 3, and 2) Waste Characterization and Minimization Assessment.

Please call me at 667-5288, if you have additional questions.

Sincerely,

Donna M. Lacombe  
Environmental Scientist  
Technical Programs Branch
