Mr. Harold E. Valencia  
D.O.E. Area Manager  
U.S. Department of Energy  
Los Alamos, NM 87544

RE: NM0890010515

Dear Mr. Valencia:

The EID has received your letter of November 8, 1988 and the accompanying Part B permit application for the 40CFR Subpart X units at LANL. As you aware, the EID is preparing the draft RCRA operating permit for LANL. At this time EID cannot include the open burn-open detonation units without jeopardizing the remainder of the permit which must be finalized by November 8, 1989.

The draft permit will include, in so far as possible, the information in your latest submittal pertinent to the incinerators, treatment and storage units. The subpart X units may be added at a later date as a modification to your operating permit.

If you have any questions please call Mr. C. Kelley Crossman at 827-2923.

Sincerely,

*Boyd Hamilton*
