REGION VI

90 MAR 30 AM 11:13

MAR 28 1990

HAZARDOUS WASTE MGMT. DIV.

1978  
Permit

Mr. Allyn M. Davis  
Director, Hazardous Waste Management Division  
Environmental Protection Agency  
1445 Ross Avenue, Suite 1200  
Dallas, TX 75202-2733

Dear Mr. Davis:

Your letter transmitting Hazardous Waste Permit No. NM089001515 for Los Alamos National Laboratory was received by the Department of Energy on March 15, 1990. The letter was forwarded to me because I am now the Area Manager for the Los Alamos Area Office.

The Permit states that it will become effective on April 10, 1990, unless a petition is filed with the Administrator of EPA. We believe that this date is incorrect.

Section 124.15 of 40 CFR provides that a final permit decision becomes effective thirty days after the service of notice of the decision unless review of the Permit is requested. Pursuant to 40 CFR Section 124.20, a time period scheduled to begin on the occurrence of an event begins on the day after the event. If the final day falls on a weekend, the time period is extended to the next working day.

Therefore, the thirty-day time period preceding the effective date of the Permit began on March 16, 1990, and ends on April 14, 1990. Because April 14 is a Saturday, the time period is extended until Monday, April 16, 1990. Consequently, the effective date of the Permit is April 16, 1990, rather than April 10, 1990, as stated in the Permit.

We would appreciate a response to this letter to ensure that we are in agreement regarding the effective date of the Permit. If you have any questions regarding this matter, please contact Lisa Cummings of the Counsel's Office at FTS 843-4667.

Sincerely,

*Jack B. Tillman*  
Jack B. Tillman
