OFFICE OF HED SECRETARY

Harry T. Season, Jr.
Acting Area Manager
Department of Energy
Albuquerque Operations
Los Alamos Area Office
Los Alamos, New Mexico 87544

LAW
IV

Dear Mr. Season:

This is in response to your letter dated September 7, 1990, in which you petition for a modification to the Hazardous and Solid Waste Amendments (HSWA) portion of your Resource Conservation and Recovery Act (RCRA) Hazardous Waste Permit (NMO890010515). You agree that, once the modification is put into effect, you will withdraw your Petition for review, Appeal No. 90-12.

Your letter indicates you have transmitted a copy of the letter to all persons on the facility mailing list. The Environmental Protection Agency (EPA) Region 6 has developed a partial Facility Mailing List (enclosed). In addition to the partial Facility Mailing List developed by EPA Region 6, the complete Facility Mailing List includes the list compiled by the New Mexico Environmental Improvement Division (NMEID). For purposes of this modification you must notify each party on the complete Facility Mailing List which includes both the Region 6 list and the NMEID list.

As described under 40 CFR 270.42(9)(iii), any person may request the Director to review any Class 1 permit modification. The notice to be sent to all parties on the facility mailing list should clearly explain this, and also provide my address in the notice. Also a reasonable time frame in which persons may request review should be suggested.

The HSWA permit requires submittal of the RCRA Facility Investigation (RFI) Installation Workplan 180 days from the effective date of the permit. The Installation Workplan is due on November 19, 1990.

If you have any questions please contact me or Bill Honker of my staff at (214) 655-6770.

Sincerely yours,

Allyn M. Davis

Allyn M. Davis
Director
Hazardous Waste Management Division
