\*ALSO ADMITTED IN TEXAS

Ms. Kathleen Sisneros  
Chief, Hazardous & Radioactive Waste Bureau  
Environmental Improvement Division  
Health and Environment Department of New Mexico  
1190 St. Francis Drive  
Santa Fe, NM 87503

Re: Public Records Act Request  
Los Alamos National Laboratory

Dear Ms. Sisneros:

Pursuant to the provisions of New Mexico's public records laws, I request a copy of a record which I have been informed is titled, "Installation Work Plan," or "EPA Installation Work Plan," concerning the Los Alamos National Laboratory. I am particularly interested in reviewing records which delineate contaminant levels which are acceptable in corrective, remedial or removal actions at sites within LANL. It is my understanding that this record describes all of the waste remediation projects being conducted at the facility. I would also appreciate, however, any additional public records which you may have, including permits issued pursuant to the Resource Conservation and Recovery Act or applicable state law, which would delineate the information in which I am interested.

If there are any fees for searching for, or copying the records I have requested, please inform me before filling the request.

If all or any part of this request is denied, please cite the exemptions which you believe justify your refusal to produce the information, and inform me of the appeal procedures applicable under the law. In addition, if you know of the existence of any records described in this request pertaining to the referenced subject matter, but which are not in the possession of your agency, please identify those records, and inform me of their location and the means by which I can request access to those records, as well.
