RE: LANL RCRA Permit Appeal Status

Attached please find the District Court decision I received yesterday, in the federal declaratory judgment case filed by DOE challenging the RCRA permit conditions. The Court denied the State's motion to dismiss the case, and joined the Regents of the University of California as a party to the case.

The State must now file its Answer to the Complaint, and its Response to DOE's Motion for Summary Judgment, within a very short timeframe. We may also file a Cross Motion for Summary Judgment.

Elizabeth, I will need your assistance especially. If you have any plans for being out of the office the next week, please let me know as soon as possible.
