Permit

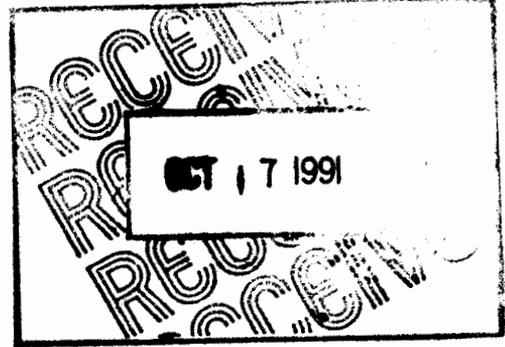

P347-152-860

OCT 11 1991

RETURN RECEIPT REQUESTED

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Benito J. Garcia, Acting Bureau Chief
Hazardous and Radioactive Waste Bureau
New Mexico Environment Department
Harold Runnels Building
1190 St. Francis Building
Santa Fe, New Mexico 87503

Dear Mr. Garcia:

The State of New Mexico issued a hazardous waste permit jointly to the Department of Energy (DOE) and the University of California (UC) on November 8, 1989, for operation of treatment and storage units at the Los Alamos National Laboratory. Attachment I of the permit mandates solid waste stream characterization and submittal of requested information to the New Mexico Environment Department (NMED) on a quarterly basis.

In accordance with Permit Attachment I and a letter from the Environmental Improvement Division to Harry T. Season Jr., dated December 12, 1990, the DOE and UC are submitting the required summary report. This report covers the ninth quarter for Technical Areas 39, 40, 41, and 43 which is due to the NMED on or before March 8, 1992.

If this office may be of further assistance in this matter, please call Steve Slaten of my staff at 665-5050.

Sincerely,

Steve Slaten
for Monet C. Harrison, Acting Chief
Environment, Safety and Health Branch
