Ed Horst, Program Manager  
Hazardous and Radioactive Waste Bureau  
New Mexico Environment Department  
P.O. Box 26110  
Santa Fe, New Mexico 87502

Dear Mr. Horst:

During the development of the FY93 workplan for New Mexico's Hazardous Waste Program, it was decided not to include administrative or technical completions for the Sandia or Los Alamos National Laboratory mixed waste units, given the large workload and limited resources in the program. However, these units still remain areas of concern to me. Therefore, I am requesting that New Mexico call in the Part B applications for these units during FY93 and begin the review, so that the permits can be issued during 1994.

If you have any questions, please call me at (214) 655-6785.

Sincerely yours,

*David W. Neleigh For Dave Neleigh*
