

## PUBLIC NOTICE

The US Environmental Protection Agency (EPA) has tentatively decided to issue a revised permit as requested by the Los Alamos National Laboratory in a permit modification request dated February 13, 1993.

The following modifications were requested:

- wording clarifications and additions of boilerplate language on dispute resolution to the current permit to provide consistency with other permits in EPA Region 6,
- addition of 483 solid waste management units to the existing 605 for a total of 1,088 solid waste management units subject to investigation pursuant to Sections 3004 (u) and 3004 (v ) of RCRA, and
- a staggered schedule for submitting remaining RCRA facility investigation work plans.

The public was duly notified of the request via mailing list, newspaper advertisements, and public meetings held April 19 and April 26, 1993, in Santa Fe and Los Alamos, respectively. A 60-day comment period was established; however, no public comments were received, either written or through public meetings.

EPA has drafted a permit to incorporate the above modifications and has added the following modification:

- page 16, paragraph 2, line 3: The amount of time the permittee is allowed to respond to deficiencies in their workplans has been changed to being subject to the time frame specified by the Administrative Authority rather than to thirty (30) days. This change was also made on page 26, paragraph 2, line 3 which also refers to the period of time the Permittee has to respond to any deficiencies noted by the Administrative Authority.

The public has 45 days to comment on the permit modifications and can do so until October 15, 1993. Comments can be submitted to:

Barbara Driscoll  
RCRA Permits Branch (6H-PN)  
Environmental Protection Agency  
1465 Ross Avenue Suite 1200  
Dallas, Texas 75202-2733  
Telephone: (214) 655-7441

A copy of the modified permit is available for viewing at the following locations:

THE ENVIRONMENTAL PROTECTION AGENCY, REGION 6  
PUBLIC NOTICE OF REQUEST FOR MODIFICATION OF PERMIT  
LOS ALAMOS NATIONAL LABORATORY, LOS ALAMOS, NM  
EPA I.D. #NM0890010515

Los Alamos National Laboratory (LANL) has submitted a request for a Class 3 Permit modification to the Hazardous and Solid Waste Amendments (HSWA) portion of its Resource Conservation and Recovery Act (RCRA) Hazardous Waste Permit to the U.S. Environmental Protection Agency (EPA). LANL has requested the following changes to their permit:

- Minor wording clarifications and addition of boilerplate dispute resolution language to the current permit in order to provide consistency with other permits in EPA Region 6.
- Addition of 483 solid waste management units to the existing 605 for a total of 1,088 solid waste management units subject to investigation pursuant to Sections 3004(u) and 3004(v) of RCRA; and
- A staggered schedule for submitting remaining RCRA facility investigation work plans.
- Page 16, paragraph 2, line 3: The amount of time the permittee is allowed to respond to deficiencies in their work plans has been changed to being subject to the time frame specified by the Administrative Authority rather than to thirty (30) days. This change was also made on page 26, paragraph 2, line 3 which also refers to the period of time the permittee has to respond to any deficiencies noted by the Administrative Authority.

The request for permit modifications and the compliance history of LANL during the life of the permit being modified is available for Barbara Driscoll, U.S. Environmental Protection Agency, Hazardous Waste Management Division, RCRA Permits Branch (664-P), 1425 Ross Avenue, Dallas, Texas 75202-2733. The request for permit modification and supporting documents are also available for review at:

Environmental Reading Room 1450 Central Ave., Suite 101 Los Alamos, New Mexico	Santa Fe Public Library 145 Washington Avenue Santa Fe, New Mexico
Española Public Library 314A Qñate Street Española, New Mexico	Mesa Public Library 1741 Central Avenue Los Alamos, New Mexico

Interested persons may submit written comments, or a public hearing will be held if requested, on the permit modification within forty-five days of the date of publication of this notice to Barbara Driscoll, U.S. Environmental Protection Agency, at the previously mentioned address.

For further information regarding this request for permit modification, interested persons should contact Barbara Driscoll, EPA Hazardous Waste Management Division at (214) 655-7441. Comments will be received until October 25, 1983.
