REPLY TO
ATTN OF: LESH:TJT:PermitMod
SUBJECT:

Notice of Approval of Permit Modification
TO: David McInroy, Acting Program Manager, UC-LANL, EM/ER, MS M992

The U.S. Environmental Protection Agency (EPA) has approved the requested modification to Module VIII of the RCRA permit, and requires that Los Alamos National Laboratory send the attached notice to the facility mailing list. Please take actions to ensure that the notice, as appropriately modified to state that the permit and other material are available for review at the Reading Room, is sent within seven days of receipt of this memorandum, and send me a copy of the notice. I will receive from EPA a copy of the modified permit in the next few days, and will send it to you for your use and for placement in the Reading Room.

If you have questions, please call me at 665-7203.

Theodore J. Taylor
Program Manager
Environmental Restoration Program

EPA Determination of Final Decision on
Class 3 Permit Modification

Pursuant to the Hazardous and Solid Waste Amendments of 1984 to the Resource Conservation and Recovery Act (RCRA), the Environmental Protection Agency has issued a final determination on a Class 3 permit modification to Module VIII of the Los Alamos National Laboratory's permit to operate under RCRA. This modification is effective thirty days after approval on April 19, 1994.

EPA has approved the following changes:

- * Minor wording clarifications and the addition of boilerplate dispute resolution language to the current permit in order to provide consistency with other permits in EPA Region 6;
- * Addition of 515 solid waste management units to the existing 603 for a total of 1118 solid waste management units subject to investigation pursuant to Sections 3004(u) and 3004(v) of RCRA;
- * A staggered schedule for workplans submitted in 1993, and additional schedules for workplans to be submitted in July, 1994 and July, 1995.

The modified permit with the permit changes and response to comments is available for review at etc.
