Dear Ms. Driscoll,

**SUBJECT: ( SUBMITTAL OF THE LOS ALAMOS NATIONAL LABORATORY  
(THE LABORATORY) ENVIRONMENTAL RESTORATION (ER)  
PROJECT 1994 INSTALLATION WORK PLAN (IWP) )**

Enclosed are two copies of the ER Project's 1994 Installation Work Plan. This IWP has been streamlined in accordance with our conversations of last fall.

*HAMB should review ch. 2.* → Chapter 1 is the Introduction to the Environmental Restoration Project and includes the key changes made to the Project as a result of last year's restructuring. Chapter 2 has not changed significantly from the 1993 version of the IWP and covers the Laboratory's Environmental Setting. Chapter 3 describes the Technical Approach to the Project and addresses many of the appendices that have been included in past versions of the IWP. Chapters 4, 5, 6 and 7 have been modified somewhat to address the ER Project's current approach to the Quality Assurance Project Plan, the Records Management Plan, the Health and Safety Plan and the Public Involvement Plan, respectively.

Some of the references called out in the text may not be complete for this delivery. These will be updated and sent to you as soon as possible. Also, the list of milestones for Field Unit 1 is not included, but will be sent to you under separate cover in a couple of days.
