Re: Discontinuance of Outfalls-NPDES Permit No. NM0028355
University of Calif. and Department of Energy

Dear Mr. Todd:

In accordance with your request of June 18, 1996, you are hereby notified that we have discontinued the below listed outfalls from your National Pollutant Discharge Elimination System (NPDES) permit.

Reg. NPDES

03A009	03A043	05A061
03A032	03A060	05A062
03A037	05A058	06A078

Any resumption of the discharge or any new discharge from these outfalls without a permit will be unlawful. Should you again propose to discharge any pollutants to the waters of the United States from these outfalls or make other modifications to your permit, it may be necessary to file a new application at least 180 days in advance of the proposed discharge. Any permit issued as a result of such reapplication will contain conditions and limitations consistent with the situation, and the law and the regulations in effect at the time of reissuance, irrespective of any previously issued permit.

If you have any questions, please contact Wilma Turner at the above address or telephone (214) 665-7516.

Sincerely yours,

Jayne Fontenot
Chief
Operations Support Office (6WQ-0)
