Susan

Theodore J. Taylor
Program Manager
Department of Energy
Los Alamos National Laboratory
Los Alamos, NM 87544

Dear Mr. Taylor:

The Environmental Protection Agency (EPA) has reviewed the Summary of Comments from the May 9, 1995, and June 21, 1995, public meetings held by Los Alamos National Laboratory (LANL) as part of the Class 3 permit modification process. LANL needs to revise the manner in which comments are taken at the meeting so as to identify the source of the comment. EPA is required to respond to all comments and provide a copy of that response to the commentor. The format which LANL is currently using lists all the comments made, but not who made them. In addition, there should be a place for names and addresses on the evaluation forms, so that if additional comments are made on these forms then EPA may respond to the individual making the comment.

Should you have any questions, please feel free to contact Barbara Driscoll at (214) 665-7441.

Sincerely,

David W. Neleigh
