## Los Alamos National Laboratory Solicits Public Comments

### Regarding its Request to Modify the Hazardous Waste Operating Permit

The Los Alamos National Laboratory has proposed to remove 59 solid waste management units from its hazardous waste operating permit, as well as another 150 areas of concern from the total list of potential release sites, based on the no further action criteria. These sites include septic tanks, equipment storage areas, outfalls, and drain lines. The Laboratory's basis for no further action is that these sites satisfy one or more of the following criteria:

- \* The potential release site has never been used for managing hazardous or radioactive wastes.
- \* Historical information or field sampling indicates that no release has taken place from the potential release site.
- \* The potential release site is regulated or closed under different regulations.
- \* The potential release site has been restored to its former condition.

You are invited to attend a public meeting to discuss this permit modification on October 25, 1995, from 6:00-9:00 P.M., at the Sweeney Center, Room 1 (located at 201 W. Marcy Street, Santa Fe, NM 87501). This is an opportunity for you to participate in the ongoing decision-making process for this permit modification. We want your input in making a good decision.

If you would rather write your comments, please mail them to Barbara Driscoll Environmental Protection Agency, NM Federal Facilities Section (6PD-N), 1445 Ross Avenue, Dallas, TX 75202 by December 2, 1995. If you would like to review the request for permit modification and the history or the Laboratory's compliance with the permit, please contact Ms. Driscoll by mail or call (214) 665-7441. The permit modification request is available for review at the following locations:

LANL Community Reading Room  
1350 Central Ave., Ste 101  
Los Alamos, NM

Santa Fe Public Library  
145 Washington Ave.  
Santa Fe, NM

Governor's Office  
San Ildefonso Pueblo  
San Ildefonso, NM

Española Public Library  
314A Oñate St. NW  
Española, NM

You are also invited to participate in a tour of the sites proposed for no further action. If you would like to attend a tour on 10/19 or 10/28, from 9:00 A.M. to 12:00 P.M., please call 1-800-357-8301. You must be a U.S. citizen, at least 18 years old, and RSVP no later than October 18, 1995, 10:00 A.M.
