SUBJECT: REQUEST FOR EXTENSION FOR WASTE MINIMIZATION DELIVERABLE

Dear Mr. Neleigh:

Requirement one under the Specific Conditions of Los Alamos National Laboratory's (the Laboratory) Hazardous Solid Waste Act (HSWA) Permit, requires the Laboratory to submit by December 1, 1995 a plan addressing waste minimization for the previous year.

Los Alamos Environmental Restoration (ER) Project does not believe that the December 1 deadline is achievable this year for the following reasons. The project lost a key member of its staff last month and the transition of his responsibilities has not yet been completed. This combined with the fact that the Laboratory's Pollution Prevention Program Office was still gathering data that would support this delivery in late October. The Program Office is summarizing last years data and are rewriting policy and procedures that effect this ER Project deliverable.

The Pollution Prevention Program Office believes that their study supporting this delivery will be completed in late January. As a result of this anticipated completion date, we are respectfully requesting an extention for this delivery until February 15, 1996.

15451

2154
Permit

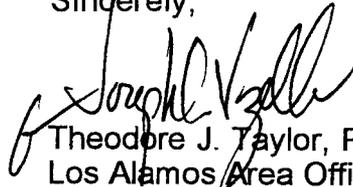

Thank you for considering our request. If you have any questions concerning this deliverable please contact Dave McInroy at (505) 667-0819.

Sincerely,

Jorg Jansen, Program Manager
Environmental Restoration

Sincerely,

Theodore J. Taylor, Program Manager
Los Alamos Area Office
