MEMORANDUM

To: Ron Kern, Technical Compliance Program Manager  
Through: Barbara Hoditschek, RCRA Permitting Program Manager  
From: Robert S. (Stu) Dinwiddie  
Date: April 21, 1996  
RE: LANL Workload Schedule

This is a list of the documents, both RCRA and Corrective Action, that I received between April 12 and April 19, 1996, from Los Alamos National Laboratory.

- \* One of the documents on this list, TA-50/54 Class III Permit Modification is a grant commitment and must be completed by late August, 1996. In order to complete it by late August 1996 it must be public noticed no later late May, 1996.
- \* TA-16 Open Burn/Container Storage Permit Application is a high priority and should have the Administrative NOD issued by late June or early July, 1996.

Other documents with no known suspense date are:

RFI Report TA-1, PRS# 1-002, 1-001(t), 1-007(k) and Aggregates K, L, M, and O.

RFI Report PRS# 21-029, please note that there are two separate documents submitted for this unit. one on April 18 and another on April 19, 1996

Final VCA TA-32, PRS# 32-002(a and b) and 32-004

Final VCA TA-35, PRS# 35-003(a,b,c, and n)

RFI Report TA-50, PRS# 50-004 (a and c), 50-011(a)

RFI Report TA-8 and TA-9, Received one copy on April 4, 1994 and was under the impression that Technical had received their copy. Now I have received another copy on April 12, 1996 and am forwarding it to you.

RFI Report TA-1 Aggregates E and G, Received one copy on April 4, 1994 and was under the impression that Technical had received their copy. Now I have received another copy on April 12, 1996 and am forwarding it to you.
