**Re: Latest Version of the HSWA Module VIII for Los Alamos
National Laboratory (NM0890010515)**

Dear Ms. Hoditschek:

Per our conversation on June 11, 1996, this is confirmation to the New Mexico Environment Department that the July 11, 1995, version of Module VIII, Special Conditions Pursuant to the 1984 Hazardous and Solid Waste Amendments (HSWA) to RCRA for Los Alamos National Laboratory (LANL), EPA I.D. NM0890010515 which is currently in NMED's possession is the most recent version of the HSWA portion of LANL's RCRA permit. This version includes the Class I permit modification requested by LANL in a letter dated March 27, 1995. The typographical errors listed below still need to be corrected in the LANL HSWA module:

1. Table C: SWMU 3-009(c) needs to be removed from the third column in this Table as it also occurs in Table A.
2. Table B: SWMU 9-008(a) is a typographical error and needs to be removed.

Should you have any questions, please feel free to contact Ms. Barbara Driscoll at (214) 665-7441.

Sincerely,

David W. Neleigh
