 Date: November 21, 1996
 Subject: List of outfalls deleted from permit

Barbara:

Here is what I have come up with concerning the list of "deleted" outfalls you sent me on 11/19/96.

03A category

020 These outfalls were verified as closed by H. Decker on 6/5/95

023

031

180

098 This outfall piped to SWSC (treatment facility) and verified as no longer discharging to the Environment on 9/28/95.

184 This outfall never put into service, chiller was never installed. Verified closed 1/27/95.

04A category

014

117

142 These outfalls were verified as closed by H. Decker on 6/5/95.

135

140 These outfalls were verified as closed by H. Decker on 1/27/95.

147 This outfall verified as closed by H. Decker on 7/27/95.

05A category

063

154 These outfalls were verified as closed by H. Decker on 9/28/95.

159 Verified closed 1/27/95.

06A category

183 See list from ESH-18, closed in 95

03A
043
Building 46-31

04A
-121
-041 39-009
-018 46-24201
= 46-004 (H. Decker)

72

07A category

109 See list from ESH-18, closed in 95

The other listed outfalls, 03A, 009, 032, 037, 060, 146 // 05A 058, 061, 062 // and 06A 078 were all verified closed in 1996, possibly LANL has not yet recieved a letter from EPA yet. I do not know.

The other listed "new" outfalls I will have to do more research on. As I find out more I will get back to you.
