RE: Request for Extension, Notice of Determination for Requests for Permit Modification Units Proposed for No Further Action, March and September 1995, December 10, 1996

Dear Mr. Garcia:

The Department of Energy (DOE) for the Los Alamos National Laboratory (LANL) Environmental Restoration (ER) Project requests a thirty (30) day extension to the January 9, 1997 due date for additional information pertaining to the subject Notice of Determination (NOD). The request is necessary because preparation of a completed response was interrupted by the Christmas-New Year mandatory close down of LANL, and by the closing of LANL due to weather conditions. If you grant this extension request, the new due date for the response is February 7, 1997.

Please let me know if you have any questions regarding this request. I can be reached at 665-7203, or you can call Bonnie Koch at 665-7202. Thank you for your consideration in this matter.

Sincerely,

Theodore J. Taylor
Environmental Restoration Program Manager
