RE: Request for Extension of the Notice of Determination for
Permit Modification for NFA, March and September 1995
Los Alamos National Laboratory (LANL)

Dear Mr. Taylor and Mr. Jansen:

The New Mexico Environment Department (NMED) Hazardous and Radioactive Materials Bureau (HRMB) is in receipt of the January 31, 1997, letter entitled Request for Extension of the Notice of Determination for Permit Modification Units Proposed for NFA, March and September 1995. The NMED granted LANL a 30-day (calendar day) extension in the January 15, 1997, letter for a deliverable date of February 7, 1997. Since the NMED letter, dated December 10, 1996, to LANL was received on December 16, 1996, a 30-day (calendar day) response would give a due date of January 16, 1997. With LANL's request for 30-day (calendar day) extension a response from LANL to NMED is expected no later than February 16, 1997.
