RE: Storm Water Pollution Prevention Plans (SWPPP) at Los Alamos National Laboratory (LANL)

At the request of the NMED/Surface Water Quality Bureau (SWQB) and ESH-18, DOE OB personnel have conducted an inventory of all SWPPP and related documents held at our White Rock Office. I have enclosed a copy of this inventory and request that ESH-18 review this inventory against all active SWPPP's at LANL. Our bureau would like to request two copies of each active SWPPP. One copy of these documents will be stored in our White Rock Office, and one copy will be forwarded to the SWQB in Santa Fe. If possible, please place our office on all applicable distribution lists so that we may receive any revisions to these SWPPP's and copies of any future SWPPP documents.

Thank you for time and assistance in this matter. If you have any questions regarding this request, please do not hesitate to contact Dennis Romero, of our staff, at 672-0459.

Sincerely,

Stephen Janicak

Steve Janicak, LANL POC
