Mr. John Keeling
Hazardous & Radioactive
Materials Bureau
New Mexico Environment Department
2044 Galisteo
Santa Fe, NM

Dear John:

I am writing to request the opportunity to copy certain Department and Bureau files pertaining to the RCRA permit issued to the Los Alamos National Laboratory (LANL.) Specifically, I wish to obtain the entire, updated RCRA permit issued by your Department to LANL. This request covers any amendments, modifications or other changes made to date in that permit.

It is my understanding that the existing permit does not include a classified annex, but in the event I am incorrect and a classified annex does exist, please consider this letter as a request for a redacted copy of any classified annex to the RCRA permit.

Thank you in advance for the effort that the Bureau will make in responding to this request. We have made arrangements for Kinko's copy center to pick up, copy and return the documents to your office.

Sincerely

greg mello
