Mr. John Keeling
Hazardous & Radioactive
Materials Bureau
New Mexico Environment Department
2044 Galisteo
Santa Fe, NM

Dear John:

I appreciate your prompt response to our request for a copy of the RCRA permit issued to the Los Alamos National Laboratory (LANL.)

During your conversation with Ruth regarding the completeness of the RCRA permit, you mentioned that the permit did not include LANL facilities operating under interim or special permits.

After reviewing the RCRA permit, it is clear that we need to obtain copies of all of permits (interim, special or any other type of RCRA-related permits) in order to have a complete package of all permitted activities at LANL. Thus, by this letter I am requesting copies of all the permits (interim, special, etc.) issued for current activities at LANL and all updates to such permits.

Also, if any of these interim, special or other type permits include a classified annex, please consider this letter as a request for a redacted copy of any classified annex.

Thank you in advance for the effort that the Bureau will make in responding to this request. When the documents are ready, please call the office and we will make arrangements for Kinko's copy center to pick up, copy and return the documents to your office.

Sincerely

g mello
Greg Mello
