SUBJECT: REQUEST FOR CLASS 1 PERMIT MODIFICATION TO EXTEND IWP SUBMITTAL DATE

Dear Mr. Kieling:

The Los Alamos National Laboratory (LANL) Environmental Restoration Project requests a Class 1 Permit Modification to extend the Installation Work Plan (IWP) submittal date from November 23, 1999 to March 31, 2000. This request is being submitted pursuant to Section O of Module VIII of LANL's Hazardous Waste Facility Permit (NM 0890010515).

This extension request is being made to accommodate the generation of an accurate annual work schedule which will not be finalized because of FY budget cycles until after the permit required November 23, 1999 delivery date. The extension will also allow for the incorporation of the Canyons Core, Material Disposal Areas Core, and Integrated Technical Strategy documents into the IWP. The need for an extension was initially discussed with you and your staff at the July 13, 1999 HRMB Monthly Meeting.

If you have any questions, please contact Dave McInroy at (505) 667-0819 or Joe Mose at (505) 667-5808.

Sincerely,

Julie A. Canepa, Program Manager
Los Alamos National Laboratory
Environmental Restoration

Sincerely,

Theodore J. Taylor, Program Manager
