Dear Mr. Weinstein,

I hope you have had a chance to review the response letter Hazardous Waste Bureau (HWB) had sent you in response to your comments regarding HWB's intention to approve the permit modification to remove 30 SWMUs from the HSWA Module of the LANL RCRA permit. The response was mailed on March 19, 2001 and a follow-up e-mail was sent to you on March 26, 2001. I am assuming that the reason I have not heard from you is that your concerns have been addressed. I would like to thank you for your interest in the protection of the environment of New Mexico.

HWB intends to approve the requested Class III permit modification to LANL RCRA permit by the fourth week of April. If you have any comments or questions, please call me at (505) 827-1557 extension 1018.

Neelam Dhawan
