Dear Ms. Arends,

I do hope that you have had a chance to review the response letter Hazardous Waste Bureau (HWB) sent you in response to your comments regarding HWB's intention to approve the permit modification to remove 30 SWMUs from the HSWA Module of the LANL RCRA permit. The HWB response, in which your specific comments were addressed, was mailed on March 19, 2001. I had called and left a message on your voice mail on March 26, 2001. Since I have not heard from you, I am assuming that you are satisfied with the response and your concerns have been addressed. I would like to thank you again for your interest in the protection of the environment of New Mexico.

HWB intends to approve the requested Class III permit modification to LANL RCRA permit by the fourth week of April. If you have any comments or questions, please call me at (505) 827-1557 extension 1018.

Neelam Dhawan

Dear Ms. Dhawan:

Thank you for your letter, phone call and e-mail about the 30 SWMUs. I haven't had the opportunity to review your response in the detail that I wish to. I will do so early next week and get back to you on Tuesday 4/17. Thank you for letting me know your timeline.
