Hi Joni,

I wanted to follow-up on our phone conversation yesterday. I am glad that I was able to address your concerns regarding NMED's decision to approve removal of 30 SWMUs from LANL's HSWA module of RCRA permit. NMED will be sending out approval letter to LANL sometime next week. As you pointed out, the reference to SWMU 35-004(c) in my response to CCNS's second comment on page 2 of the response is incorrect. It should have been SWMU 3-043(e), an underground storage tank. Please make the correction in the NMED Response letter for the record.

Thanks,  
Neelam
