**RE: SUBMITTAL OF RCRA DOCUMENTS AND CORRESPONDENCE
LOS ALAMOS NATIONAL LABORATORY
NM0890010515**

Dear Mr. Gurule and Dr. Browne:

This letter provides direction to Los Alamos National Laboratory regarding submittals for RCRA permit and corrective action activities. The Hazardous Waste Bureau (HWB) requires that all formal correspondence and submittals to HWB be submitted in the following manner:

- 1) For Corrective Action deliveries please submit the original correspondence (e.g. - cover letter) and, if applicable, original attachments (document) and one copy of the attachments to John Young, HWB's LANL Corrective Action Project Leader;
- 2) For Permit deliveries please submit the original correspondence (e.g. - cover letter) and, if applicable, original attachments (document) and two copies of the attachments to Carl Will, HWB's LANL Permits Project Leader; and
- 3) Provide a copy of the corrective action or permit correspondence (without attachments) to: James P. Bearzi, Chief, Hazardous Waste Bureau.

Please discontinue mailing of courtesy copies of corrective action and permitting documents to the following: John E. Kieling, Manager, Permits Management Program; and Robert S. (Stu) Dinwiddie, RCRA Advisor.

15966

Mr. Gurule and Dr. Browne
October 26, 2001
Page 2

Also, due to the DOE Oversight and Hazardous Waste Bureaus sharing office space in Santa Fe copies should be limited to the following for the DOE Oversight Bureau:

- 1) For Corrective Action deliveries please submit correspondence and, if applicable, attachments (document) to Stephen Yanicak, DOE Oversight Bureau, at the White Rock Office; and
- 2) Provide a copy of the correspondence (without attachments) to: John Parker, Chief, DOE Oversight Bureau.

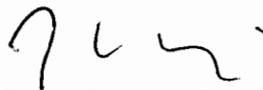

The DOE Oversight Bureau should continue to receive other documents not relating to RCRA activities as submitted to the Hazardous Waste Bureau.

Additional copies of submittals may be requested by HWB on an as needed basis. This does not relieve the facility of submitting copies to EPA, other agencies or other Bureaus within NMED (see attachment).

Please note that all deliverables should be identified in accordance with your RCRA permit and the document types identified in Tables 2.2, 2.3, 2.4 and 2.5 of the Hazardous Waste Fee Regulations (HWFR) 20 NMAC 4.2. Any proposed documents that vary from the HWFR Tables should be discussed with John E. Kieling, Manager, Permits Management Program, prior to submission. The delivery of documents submitted other than that of RCRA document types may be returned without consideration of review.

Should you have any questions regarding this letter please contact John E. Kieling at (505) 428-2535.

Sincerely,

James P. Bearzi
Chief
Hazardous Waste Bureau
