NOTICE

Los Alamos National Laboratory

**Notification of Class 1 Permit Modification
Closure Plans
Resource Conservation and Recovery Act
Hazardous Waste Facility Permit**

The New Mexico Environment Department's Hazardous Waste Bureau has approved a Class 1 Permit Modification to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit. In compliance with 20.4.1.900 NMAC (incorporating 40 C.F.R. § 270.42(a)(1)(ii)), the Department of Energy-National Nuclear Security Administration/University of California (DOE-NNSA/UC) hereby notifies you of this modification. The modifications revise the closure plans for two container storage areas and implement closure procedures for an exhaust system. Changes to the LANL Hazardous Waste Facility Permit include, maximum inventories, dates of closure, decontamination procedures, and addition of analytes to the sampling conducted on the exhaust system. These changes were specified in the modification requests and as part of the conditions of approval. These modifications were granted approval by letter on March 24, 2004. If you have any questions about these modifications, please contact Luciana Vigil-Holterman at (505) 665-3435.
