RE: COMMENTS AT NNM CAB MEETING

Dear Ms. Arends:

I am in receipt of your April 6, 2005, letter in which you request written confirmation of certain statements you believe were made by me during my presentation at the March 30, 2005, meeting of the Northern New Mexico Citizens' Advisory Board. As you may recall, you asked in the Question and Answer portion of my presentation if I had said the permit for hazardous waste management operations at Los Alamos National Laboratory would be released in about one year. As you may further recall, I responded to you that I did not remember if I had said that. My recollection of that specific statement has not improved since then.

The NNM CAB routinely records its meetings. Perhaps you or your organization could request a transcript of the meeting from the NNM CAB. Such a document might definitively answer your questions.

Sincerely,

James P. Bearzi
Chief
Hazardous Waste Bureau
