**Subject:** Transmittal of the U.S. Department of Energy-National Nuclear Security Administration (DOE-NNSA)/University of California (UC) Class 1 Permit Modification to the Contingency Plan of the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit

Dear Mr. Kieling:

The purpose of this correspondence is to transmit a Class 1 permit modification to the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB). The permit modification makes changes to the list of emergency coordinators within the Attachment D Contingency Plan of the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit. Table D-2 has been revised to include updated names for emergency manager contacts.

This modification has been prepared in accordance with the New Mexico Administrative Code, Title 20, Chapter 4, Part 1 (20.4.1.900 NMAC) (incorporating Code of Federal Regulations [CFR], Title 40 § 270.42(a)(1)), revised October 1, 2003. The attached permit modification package includes a revised Table D-2 for insertion into the LANL Hazardous Waste Facility Permit. This revision changes the names, addresses, and phone numbers of coordinators or other persons or agencies identified in the plan as described in Appendix I to 20.4.1.900 NMAC (incorporating 40 CFR § 270.42). This modification does not change any emergency procedures or equipment at the LANL permitted container storage units. Changes made to the names, addresses, and phone numbers of coordinators are valid for interim status units as well as units included within the permit.

Changes to Table D-2 are necessary because of recent changes occurring within the LANL Emergency Management & Response Group. These changes must be made so that LANL continues to comply with 20.4.1.500 NMAC (incorporating 40 CFR § 264.52(d)). Notification of this modification will be sent to the NMED maintained LANL facility mailing list in accordance with 20.4.1.900 NMAC (incorporating 40 CFR § 270.42(a) (1) (ii)).

Included herein are three hard copies and one electronic copy of this submittal. The submittal includes a version with editing marks as well as a clean version of Table D-2. If you have any comments or questions regarding this permit modification, please contact Gene Turner of my staff at (505) 667-5794 or Jack Ellvinger, UC, at (505) 667-0633.

Sincerely,

Edwin L. Wilmot  
Manager
