RE: FINAL PERMIT DECISION: CLASS 2 PERMIT MODIFICATION TO THE LOS ALAMOS NATIONAL LABORATORY HAZARDOUS WASTE FACILITY PERMIT, EPA ID# NM890010515-1

Dear Interested Person:

This letter notifies you of a final permit decision by the New Mexico Environment Department (NMED) to modify the Hazardous Waste Facility Permit for Los Alamos National Laboratory (LANL), jointly operated by the US Department of Energy and Los Alamos National Security LLC (the Permittees). The Permittees requested four Class 2 modifications to the Permit on March 29, 2007, and public noticed a 60-day comment period from April 3 through June 1, 2007. During the public comment period, only the Permittees submitted comments that recommended additional changes to their original permit modification request.

NMED evaluated and processed this permit modification request in accordance with the requirements specified in 20.4.1.900 NMAC (incorporating 40 CFR §270.42(b)). NMED approved the LANL permit modification request with the Permittees' recommended changes on July 24, 2007. Because the Permittees comments were accepted in their entirety, the final decision also constitutes NMED's response to comments. The modification request, public comments, and final decision documents can be found on the NMED website at <www.nmenv.state.nm.us/hwb/lanlperm.html> under Permit Modification - Container Storage.

Sincerely,
