Permit

### NOTICE OF CLASS 1 PERMIT MODIFICATION

The National Nuclear Security Administration (NNSA) and the Los Alamos National Security, LLC (LANS) have submitted a Class 1 permit modification to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit. The modification was submitted to the New Mexico Environment Department Hazardous Waste Bureau on October 1, 2008. The permit modification updates Table D-2 within the Contingency Plan (Attachment D) of the Permit. Changes to the table update the listing of emergency managers to remove one emergency manager who is no longer functioning in that capacity and to add a replacement.

This modification was prepared in accordance with the New Mexico Administrative Code, Title 20, Chapter 4, Part 1 (20.4.1.900 NMAC) (incorporating Code of Federal Regulations [CFR] , Title 40 § 270.42(a)(1)), revised October 1, 2003. These changes are necessary to cover recent changes occurring within the LANL Emergency Operations Division. If you have questions regarding this modification or would like to request a copy of the modification please contact Jack Ellvinger at (505) 667-0633 or [jee@lanl.gov](mailto:jee@lanl.gov).
