MEMORANDUM

TO: Hazardous Waste Bureau, Administrative Record, LANL Permit File
FROM: Steve Pullen, Environmental Specialist, Permits Management Program
DATE: April 23, 2009
RE: LANL Site Visits – Permitted Unit Demarcation

During two site tours of Los Alamos National Laboratory I witnessed instances where the boundary of a permitted unit could not be determined. On February 12 2009 and May 28, 2008 I toured TA-54 Area G and could not distinguish the boundary between Pads 9 and 10.
