Dear Mr. Bearzi:

Enclosed please find an amendment to the above referenced Work Plan for the assistance to the New Mexico Environment Department (NMED) Hazardous Waste Bureau (HWB) in drafting the Corrective Action Chapter of the RCRA permit renewal for the Los Alamos National Laboratory. This brief amendment was drafted to add Ms. Charlotte Robinson, Esq. to the Work Plan and to provide NMED with a cost estimate on travel for Ms. Robinson and myself to attend the November 28, 2001 LANL meeting at the HWB offices. This amendment has been drafted based on your technical directive (email) dated November 16, 2001.

The participation of Ms. Robinson and me in the meeting will be performed under Task 04 of the existing Work Plan referenced above. Therefore, no costs are associated with this amendment, although it is expected that a revised work plan will be needed, after a discussion of the scope of work and the role of Ms. Robinson, and TechLaw are assessed.

We have also modified the Work Plan to include a clerical staff replacement for Ms. Delores Romero. Ms. Susan Pearson, will be replacing Ms. Romero, who will be leaving TechLaw in late November.

In order to expedite your review I have enclosed a copy of the original Work Plan.
