RE: Addition of Subcontractor to support Los Alamos National Laboratory Permit Hearing

Mr. Cobrain:

In order to fulfill your request to provide support on technical issues related to high explosives (HE) stability and transportation of HE waste resulting from operations at Los Alamos National Laboratory (LANL), we needed to solicit expertise outside of AQS. We will be using Mr. Dennis Stanley, Explosive Consultant, as a subcontractor to provide this support. Mr. Stanley's billing rate will be invoiced at a rate of \$109 per hour.

A copy of his resume and statement of conflict of interest will be sent to you for your files.

If you or any of your staff have questions, please contact me at (801) 451-2864 or via email at paigewalton@msn.com.

Thank you,

Paige Walton
AQS Senior Scientist and Project Lead
