Subject: LANL Hazardous Waste Permit

Dear Sir,

I am writing to express my support for issuing LANL a Hazardous Waste Permit. I and my family live and work near the laboratory, and I am confident that the Laboratory conducts its national security work in a safe manner that protects the NM environment and citizens, while simultaneously enhancing our national security. Please don't let irrational fear and emotion rule the day when not issuing the permit has far reaching and negative consequences for our state and our nation.

Sincerely,

James B. Krone
