John,

The MDA B site restoration and Townsites are not our priorities. According to their numbers, that funding is sufficient to address the TA-16 groundwater issues (well installation, reconfiguring and rehab of 16-4ip, abandonment of R-25), which conforms to the Governor's priorities. The Townsites and MDA B are LANL's priorities for image purposes and probably some incentive rewards for transferring property and aren't connected to the protection of surface water and groundwater under the Framework Agreement.

Dave,

Attached is a proposal for LANL FY13 which I believe you have seen. It is from June 2013. I will discuss this with you when I return to the office. Secretary Martin agreed that a 6 month plan for FY13 will be adequate for LANL as funding is an issue while there is a continuing resolution and funding also looks bleak for this FY from congress.
