NOTICE OF MODIFICATION TO THE COMPLIANCE ORDER ON CONSENT

The National Nuclear Security Administration and Los Alamos National Security, LLC, submitted a modification to the March 1, 2005 Compliance Order on Consent (Consent Order) and received approval for requested modification from the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB). The modification is equivalent to a Class 1* permit modification with prior approval and was submitted consistent with 40 Code of Federal Regulations (CFR) § 270.42(a)(2).

The Class 1* equivalent modification to the Consent Order was submitted to the NMED-HWB on October 22, 2012. The modification added a new section, Section III.Z, *Public Environmental Database*, that requires the maintenance of a publicly accessible database containing data from environmental media collected as part of environmental investigation and monitoring activities. The NMED-HWB approved the modification on October 29, 2012.

This new Consent Order requirement replaces the Risk Analysis, Communication, Evaluation and Reduction (RACER) database requirements in the Settlement Agreement and Stipulated Final Order, HWB 07-27 (CO) which was terminated by NMED-HWB on October 30, 2012.

These modifications were prepared consistent with the 20.4.1.900 NMAC (incorporating 40 CFR §270.42(a)(2)). If you have any questions regarding this modification, please contact Colleen Curran at (505) 664-0344 or Colleen_Curran@lanl.gov.
