EMPLOYMENT HISTORY

Environmental Scientist & Specialist
December 2006 - present

New Mexico Environment Department, Hazardous Waste Bureau

- Permitting and Compliance
 - Reviewed and drafted notices of deficiency on RCRA closure plans
 - Drafted closure and post-closure care requirements for container storage, tank, and open burn units
 - Drafted and managed responses to public comments on Los Alamos National Laboratory's (LANL) draft RCRA permit
 - Participated in negotiations for LANL draft RCRA permit with Permittees and public stakeholders
 - Prepared written testimony for public hearing concerning LANL draft RCRA permit
 - Maintained LANL administrative record
 - Reviewed LANL Multi-Sector General Permit Storm Water Pollution Prevention Plans
 - Lead and assisted numerous hazardous waste inspections throughout the state at various types of facilities (Treatment Storage and Disposal Facilities, Large Quantity Generators, Small Quantity Generators, and Conditionally Exempt Small Quantity Generators)
 - Technical lead for open burn and closure discussions
 - Reviewed and drafted notices of deficiency on air dispersion modeling reports
 - Drafted permit requirements for active open burn units
- Corrective Action
 - Reviewed and draft notices of deficiency on LANL's investigation work plans and reports for multiple Solid Waste Management Units and Areas of Concerns to assure compliance with enforceable documents
 - Drafted enforcement actions for noncompliance with enforceable documents
- Public Outreach
 - Planned and implemented eight listening sessions in northern New Mexico to gauge public environmental concerns regarding issues pertaining to LANL
 - Sought out, and collaborated with, various stakeholders, nonprofit organizations, and elected officials to facilitate community representation in listening sessions
 - Designed and distributed listening session announcements for a broad audience
 - Compiled notes summarizing public concerns expressed during listening sessions
 - Authored article for NMED quarterly newsletter summarizing listening sessions' progress and results
 - Prepared listening session analysis report to determine efficacy of sessions

Interpretive Program Coordinator
March 2004 – September 2004

Student Conservation Association, Allenstown, NH
