SUBJECT: SOLID RADIOACTIVE WASTE DISPOSAL REPORT FOR THE SECOND QUARTER OF 1965

SYMBOL :

1324
Report

Disposal activities for the second quarter of 1965 are reported as well as data on waste volume and costs. As some of the data is based on estimates, this fact should be kept in mind if any conclusions are to be drawn from this report.

Data for this report was supplied by Eng-4, SP-3, the Zia Refuse Dept., the Zia Tech Janitorial Dept. and LA Notebook #12442 and S-1065.

A cost write-off for pit #4, Area G, was planned for this quarter, but Eng-4 was unable to supply this information. Also, the cost for covering the exposed trash in pit #3, Area G, during this quarter was not made available by Eng-4 so is not reported.

Eng-4 was requested to plan a new disposal pit during the first quarter as well as a new site for disposal wells on Mesita del Buey. Preliminary surveys for possible sites have been made and actual work may start during the third quarter. It is estimated that pit #3 has space for about 1½ layers of trash left in it and unless another pit is available routine trash will be placed in pit #4 along with non-routine material until it is filled.

Area C:

As of the end of this quarter, there were three unused 3' diameter wells left and seven unused 12" diameter concrete lined wells left.

A cost write-off for Area C for this quarter is as follows:

1. Fencing; (Bal. as of 6/10/65=\$203) \$97.00
