SUBJECT ACTIVITIES FOR APRIL 1979

SYMBOL H12-79-213

1385
Report

Fifteen percent of my time was spent talking with various people on various subjects, 19% was spent on reviewing and writing reports, 36% was spent on the map, 5% was spent on the trace element study, and 10% was spent in moving. April 26th, 27th, and 30th were spent in packing and moving to TA-3, SM-439.

Work during April 1979 toward objective (4) description of the geologic, biologic, and hydrologic pathways by which releases might occur.

The geologic mapping is progressing. Map 12 is finished and Map 18 is nearly complete.

H-8 has now completed all the analyses for the trace element study.
